

Established in 2009, CriticalMedEd provides a number of training courses and consultation services to the General Public, Healthcare Professionals, and EMS Providers.

We at CriticalMedEd, allow participants to learn in the comfort of the facilities in which they practice.

This option allows participants to practice with the equipment that is utilized on a daily basis, not old antiquated equipment. This is more cost-effective, as it ultimately saves your organization time, money, travel expenses, and lodging when we come to you. It will also free you from having to cover multiple shifts on your schedule because we bring the classroom setting to you!

CriticalMedEd is an Authorized Provider of CPR and ECC Courses as recognized by the American Heart Association. We also offer certificate courses through the Emergency Nurses Association as well as the American Academy of Pediatrics.

Our professional team consists of Paramedics, Nurses and Physicians enabling us to offer courses for all levels of participants. Specializing in offering a wide variety of courses and custom program development, we are able to meet the specific needs of each one of our customers.

EMS SPECIAL PACKAGE

This package was especially designed to meet the needs of those providers who want to maintain their ACLS and NRP knowledge and skills. This fast paced fun filled package will allow everyone hands on time in a friendly learning environment.

ADVANCED CARDIAC LIFE SUPPORT **\$150.00**

This course is designed for experienced ACLS providers who perform these skills on a frequent basis. Although it still includes all skills testing stations it is assumed that participants will arrive prepared to test with little review and/or practice.

Course length: (4 hours)

NEONATAL RESUSCITATION PROGRAM **\$150.00**

This course has been designed to teach an evidence-based approach to resuscitation of the newborn. The causes, prevention, and management of mild to severe neonatal asphyxia are carefully explained so that health professionals may develop optimal knowledge and skill in resuscitation.

Course length: (4 hours)

ACLS TEXT \$29.00

NRP TEXT \$49.95

Shipping and handling not included. (\$6.95)
